

PROGRAM

Date : Tuesday, March 9, 2010

Venue: Meeting Room 1, 7th Fl.,

Research Center for Advanced Science & Technology Bldg.

General Chair: Professor Koji ABE

09:00-09:10 Opening Address

Professor Toshihiro HIRAI (*GCOE Program Leader*)

PRESENTATION

<i>Time</i>	<i>Chair : Prof. Toshihiro HIRAI</i>	<i>Group Member</i>
9:10-9:35	Development of the fundamental technology for finishing of the nanofiber nonwoven fabric by ink-jet printing Presenter: Yuichi HIRATA	○Yuichi HIRATA, Juyong PARK(D2), Eri YOSHIDA(D3), Zhou JIAN(D1)

Chair : Prof. Koji Abe

09:35-10:00	細胞表層の合成・修飾の機構の解明 Presenter: Tatsuya FUKUSHIMA	○Tatsuya FUKUSHIMA, I Putu Sudiarta(D2)
-------------	------------------------------------------------------	--------------------------------------------

Chair : Prof. Mikihiro Miura

10:00-10:25	Study on measurement and simulation for usability of products Presenter: Yosuke HORIBA	○Yosuke HORIBA, Hiroaki YOSHIDA, Kwon Euichul(D2)
-------------	-----------------------------------------------------------------------------------------------	---------------------------------------------------------

Chair : Prof. Koji ABE

10:25-10:50	Morphological analysis of the silk and the net structure, and the analysis of the silk protein biosynthesis mechanism from aquatic insect Presenter: Takaomi NOMURA	○Takaomi NOMURA, Eiso INOUE(D3)
-------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------

Chair : Prof. Kenji HANABUSA

10:50-11:15	The functional analysis of biopolymers and preparation of composites with carbon-nanotube Presenter: Akio KUMAGAI	○Akio KUMAGAI(D2), Kazuaki SATO(D3), Hiroto NISHIJIMA(D1) , Lanxiang HUANG(D1), Jin Hee KIM(D1)
-------------	--------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------

Chair : Prof. Makoto SHIMOSAKA

11:15-11:40	多様なクワ遺伝資源の潜在能力活用に関する研究 Presenter: Midori TAKASAKI	○Midori TAKASAKI, Chumchuen SUKUNYA(D2)
-------------	----------------------------------------------------------	--------------------------------------------------

Chair : Prof. Koji ABE

11:40-11:54	Research on contact feeling of cloth in wet condition	Euichul KWON(D2)
-------------	-------------------------------------------------------	---------------------

Chair : Prof. Koji ABE

11:54-12:08	Share our thoughts and stories –Short term visiting research in University of British Columbia, Canada-	Li Yuan(D2)
-------------	---------------------------------------------------------------------------------------------------------	-------------

12:08-12:30 General Comment by external evaluator

Closing Remarks

Professor Makoto SHIMOSAKA
