

# Exit Questionnaire

**NAME:** I Gusti Agung Ayu Jayanthi Wulan Utami

**Home Institution:** Udayana University

**Dept. of Acceptance:** Respiriology Department

**Training Period:** July 4th ~ July 31st, 2014

## 1. Please describe the actual training you have received here.

I received so many trainings here, such as bronchoscopy trainings, they have a sophisticated tools and machine, I also learned how to read a radiologic findings (CT-scan and MRI) because in my country mostly undergraduate students just learn how to read chest X-Ray. I also joined the surgery for the first time and it was such a good experiences.

Another trainings that I learned is self training. In my hometown I lived with my parents. But here I have to do everything by myself, I have to wash my clothes, manage my money, and all stuffs that I never do before in my home. And it was such a good experience because finally I can proof that I can do something independently.

## 2. Was that what you expected? If not, in what way was it different from your expectation?

(Good/ better points)

It's more than what I expected before. I taught it will be difficult to learn because I can't speak Japanesse but then I am wrong. Everyone helped me a lot and I learned so many things here.

(Dis-satisfying points)

-

## 3. Please comment on the items below.

	good points	dissatisfying points
<b>Housing</b>	There's a cleaning service that help to clean our room and it's so helpful	Some rooms (for example my room) doesn't catch the wifi signal, so I have to stay outside if I need a wi-fi connection.
<b>Saku Central HP visit</b>	Saku Central Hospital has a different hospital system and it's very interesting.	The movie was too long
<b>Research Seminars</b>	It's so good to expand our knowledge and learn new things	The schedule of the research seminars mismatch with my department's schedule so I only joined it once.
<b>Weekend Excursions</b>	It's wonderful!	-

<b>Livelihood in general</b>	I really love to stay in Japan. Japanese are very kind, nice, and helpful. Japanese food is also delicious. Matsumoto is a clean and safe city.	-
------------------------------	---	---

**4. Please list as many things you think you have gained from this experience of living and studying in Shinshu.**

- A lot of new friends
- New dreams and goals : comeback here again as a Shinshu University's student.
- Good and unforgettable memories
- Learn Japanese culture
- Be more independent by doing everything by myself
- Skill and knowledge

**5. How are you going to utilize what you have learned here?**

I'll learn more and I'll use the experiences I got here as a motivation to become a successful person in the future.

**6. Would you recommend Shinshu University School of Medicine to other students?**

Yes of course!
