

2019年1月21日 (月)  
14:00 ~ 17:55

信州大学松本キャンパス  
旭総合研究棟 9階  
講義室 A・B

第12回バイオメディカル研究所国際シンポジウム

# Neurological diseases

– from synapse to behavior, from pathology to treatment

## PRESENTATIONS

**Hailan Hu** (Zhejiang University, China)  
*Ketamine, Burst and depression*

**Katsuhiko Tabuchi** (Shinshu University, Japan)  
*Mosaic deletion of CASK by X-chromosome inactivation causes an altered neural circuit function as a pathophysiology of MICPCH syndrome*

**Shengtian Li** (Shanghai Jiao Tong University, China)  
*Biomarker and intervention study of early stage epileptogenesis*

**Mitsunori Yamada** (Shinshu University, Japan)  
*Stages of glial inclusion pathology in multiple system atrophy*

**Wei Li** (National Eye Institute, National Institutes of Health, U.S.A.)  
*Living in the cold – adaptations during hibernation*

**Yoshiki Sekijima** (Shinshu University, Japan)  
*Pathogenesis and therapeutic strategies for transthyretin (ATTR) amyloidosis*

**Yun Wang** (Fudan University, China)  
*Dynamic mechanical allodynia: spinal neurocircuit and its potential treatment target*

## CHAIRPERSONS

**Tatsuo Suzuki** (Shinshu University)  
**Shigang He** (Shanghai Jiao Tong University)  
**Masahide Yazaki** (Shinshu University)  
**Yuhong Xu** (Shanghai Jiao Tong University)
