## **INVITATION**

The 6<sup>th</sup> International Conference on Advanced Fiber / Textile Materials (ICAFTM 2011) will be held in Ueda-city, Nagano Prefecture, Japan, in the period of Dec 7-9, 2011.

We cordially invite you to participate in this biennial event. We believe this symposium will provide you with an eminent opportunity to discuss and create the future vision of advanced fiber technologies.

## **Scope of 6<sup>th</sup> ICAFTM 2011**

The Symposium will be dedicated to the latest scientific, industrial and interdisciplinary fields for advanced fiber technologies.

We would in particular like to encourage your contributions to the following hot topics.

- 1. Advanced Fiber materials**
- 2. Polymer-oriented Nanotechnologies**
- 3. KANSEI Engineering**
- 4. Marketing and Apparel**

## **Venue**

Ueda, one of the reputed cities for beautiful scenery, historical architectures and excellent hot springs, is located in the center of Japan, where can be reached from Tokyo within ca. 85 minutes by Nagano Shinkansen.

*\* The Symposium site, a campus of Faculty of Textile Science & Technology, Shinshu University, is 15-min-walk from the central Ueda, or the hotels.*
