International Conference of Future Textile 2010

-Titles of Invited Lectures and Names are shown below-

2010, July 15

Prof. Jin-lian Hu (Hong Kong Polytechnic University)
"Future Adaptive Polymers for Textiles"

Prof. Hugh Gong (University of Manchester)
"Hybrid Nano-Textile Structures"

Prof. Xiangwu Zhang (North Carolina State University)
"A Nanofiber Approach to Advanced Energy Storage and Conversion"

Prof. Mutsumi Kimura (Shinshu University)
"Fabrication of Textile-based Devices using Organic Conductive Fibers"

Prof. Chris Carr (University of Manchester)
"Development of funding Schemes to Promote Innovation in Research"

Prof. John H. Xin (Hong Kong Polytechnic University)
"Functional finishing of textile materials -opportunities & challenges"

2010, July 16

Prof. Tsukada Masuhiro (Shinshu University)

"Undecided"

Prof. Harold Freeman (North Carolina State University)

"Molecular Engineering of Sustainable Synthetic Colorants"

Prof. Muriel Rigout (University of Manchester)

"Surface Chemical Analysis and Performance of Easy Care Finishes for Cotton"

Prof. Yutaka Ohkoshi (Shinshu University)

"Micro-second's structure development analysis for the strengthening mechanism of PET fiber"

Prof. Tao Xiao-ming (Hong Kong Polytechnic University)

"Industrial Collaboration of Textile related research in Hong Kong"

Prof. François Pinaud (KERMEL, France)

"Undecided"

Prof. A. Blanton Godfrey (North Carolina State University)

"Undecided"

Prof. Paul Hogg (University of Manchester)

"The Future for Textiles in Composite Materials"

Prof. Moon W. Suh (North Carolina State University)

"Modeling for 100 Years of Textile Research - Good Models, Bad Models and Wrong Models"
