

ICEFT2016

International Conference on Education in Fiber/Textile 2016

- Program for Inter-University Collaborative Education -

Dec.3, 2016 1:30 p.m. - 5:10 p.m.

Kyoto Institute of Technology 60th Anniversary Hall 1F

Invitation

It is our pleasure to announce that the International Conference on Education in Fiber/Textile 2016 (ICEFT2016) will be held at Kyoto Institute of Technology (KIT), Japan. The purpose of the conference is to discuss the development of human resources through education programs in the field of textile/fiber engineering. We have invited six international speakers to provide a variety of perspectives on this issue. We believe this conference will help the program for inter-university collaborative education among Shinshu University, Fukui University and KIT to further develop its education program after the completion of financial support from the government.

Best regards,
Makoto Shimosaka
Chair of the ICEFT 2016

Invited speakers

Kenji Ogino

Vice-President,
The Society of Fiber Science and Technology, Japan
Professor, Tokyo University of Agriculture and Technology

Jinlian Hu

Professor,
Institute of Textiles and Clothing
The Hong Kong Polytechnic University

Meifang Zhu

Dean and Professor,
College of Materials Science and Engineering
Donghua University

Wen-Cheng Chen

Leader, Advanced Medical Devices and
Composites Laboratory
Professor and Director, Department of Fiber and
Composite Materials
Feng Chia University

Jaewoong Lee

Assistant Professor
Department of Textile Engineering & Technology
Yeungnam University

Hideki Hoshiro

Japan Textile Consultants Center
General Manager, Production & Technology
Management Division
Kuraray CO.LTD

Conference Fees

Free

Venue

Kyoto Institute of Technology 60th Anniversary Hall 1F

Matsugasaki, Sakyo-ku, Kyoto 606-8585 JAPAN
<https://www.kit.ac.jp/>

Access

Kansai Airport ⇒(Direct)⇒ KIT

(Share Taxi) Approximately 2hours

MK Taxi, Skygate Shuttle service Yasaka Taxi, Kansai Airport Shuttle

Kansai Airport ⇒ Kyoto Station

Train (JR West- West Japan Railway)

This limited express "Haruka" takes you from the airport to Kyoto Station in approximately 80 minutes.

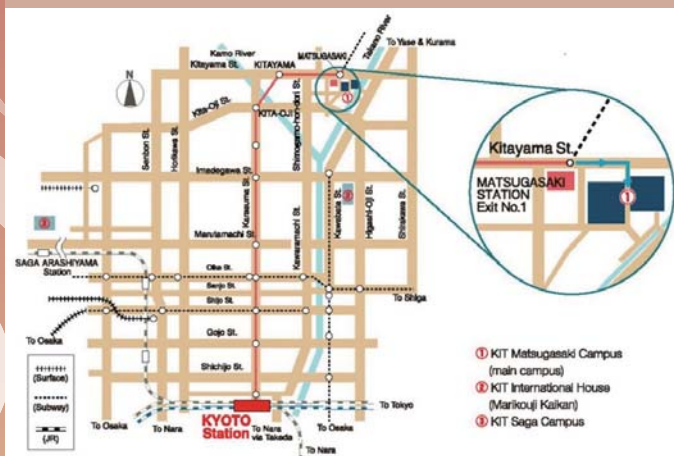

Coach (Kansai Airport Transportation Enterprise)

This bus takes you from the airport to Kyoto Station in approximately 85 minutes.

Kyoto Station ⇒ KIT

Subway

Take the "Kokusai Kaikan" bound Karasuma Line Subway to "Matsugasaki" Station, and walk east for about 8 minutes.

Time Schedule

1F		
12:30 p.m. -	Registration	
1:30 p.m. - 1:40 p.m.	Opening	
1:40 p.m. - 2:10 p.m.	Prof. Kenji Ogino The Society of Fiber Science and Technology, Japan	History and Education for Fiber Science and Technology in TUAT from the Viewpoint of the Collections in Nature and Science Museum
2:10 p.m. - 2:40 p.m.	Prof. Jinlian Hu The Hong Kong Polytechnic University, Hong Kong	Education of Research Students for Disruptive Innovation Era
2:40 p.m. - 3:10 p.m.	Prof. Meifang Zhu Donghua University, China	Functional and Smart Fibers: From Education to Innovation in China
3:10 p.m. - 3:30 p.m.	Coffee break	
3:30 p.m. - 4:00 p.m.	Prof. Wen-Cheng Chen Feng Chia University, Taiwan	The Education and Development of Taiwan's Textile/Garment Institution- case report of Feng Chia University
4:00 p.m. - 4:30 p.m.	Prof. Jaewoong Lee Yeungnam University, South Korea	Educational environment change of university and fiber/textile education in Korea
4:30 p.m. - 5:00 p.m.	Dr. Hideki Hoshiro Japan Textile Consultants Center, Japan	Global Human Resources Sought by Textile Enterprises
5:00 p.m. - 5:10 p.m.	Closing	

Ministry of Education, Culture, Sports, Science and Technology Program for Promoting Inter-University Collaborative Education
Human resource development for the next generation in the fiber/textile engineering field

Fiber/Textile Engineering Course

The purpose of this course is to enable three universities (Shinshu University, University of Fukui, and Kyoto Institute of Technology) with graduate school majors in fiber/textile engineering to collaborate on and amalgamate their education and research resources, leveraging their respective strengths to build an alliance of fiber/textile technology universities to lead this field. This course aims to foster human resources that can play an active global role in fiber/textile engineering fields, through an extensive curriculum that includes classes taught by invited world-reknowned professors and discussions with engineers and researchers from the private sector, and academic internships.

Organizing Committee

Chair Makoto SHIMOSAKA (Shinshu University)

Masuhiro TSUKADA (Shinshu University)

Shin-ichiro SUYE (University of Fukui)

Kanji KAJIWARA (Shinshu University)

Hiroshi URAKAWA (Kyoto Institute of Technology)
