

The Environmental Policies of the Faculty of Agriculture

[Basic Philosophy]

We will contribute to conserve and improve global environment through education, research, local cooperation, and international academic exchange at the Faculty of Agriculture, Shinshu University, aiming at the preservation of the only one earth and the realization of mature affluent society, namely sustainable recycling-oriented society, where humans and nature can coexist.

[Basic Policies]

The faculty will promote the following activities with the united efforts of all the school staff, students, and COOP-staff in Ina campus.

1. The faculty will promote educational research activities by combining field work and laboratory research to foster talented people with an environmental mindset.
2. The faculty will break fresh ground in food, agricultural and environmental sciences, promote research of the environment, and contribute to the reduction of environmental load and the realization of the recycling-oriented society.
3. We will promote the preservation of the environment and the realization of sustainable society in close cooperation with local community and government.
4. We will establish an Eco-Campus through continual improvement, environmental load reduction, and pollution prevention.
5. We will set and undertake an annual review of environmental objectives and targets, including Mottainai (energy saving, resource saving, and recycling) and safety management of chemical substances.
6. The faculty will adhere to the legal requirements applicable to environmental issues in all the activities in the campus, and other environmental requirements to which the Environmental Management System (EMS) consents. We will promote voluntary environmental conversation and improvement activities.

We will announce the above environmental policies to all the school staff and students in Ina campus, and make them available to the public.

Enactment 2005/7/25 (The First Edition)

Revision 2015/4/27 (The Fifth Edition)

Dean, the Faculty of Agriculture of Shinshu University
