

## How to translate Web page using Google Chrome(Japanese→English)

1, Click "☰" in the upper right corner of Chrome and select "設定".

2, Scroll the "設定" page to the bottom and click "詳細設定".

3, Scroll to the level slightly lower from the center of the page and turn on "母国語以外のページで翻訳ツールを表示する" from "言語" tab.

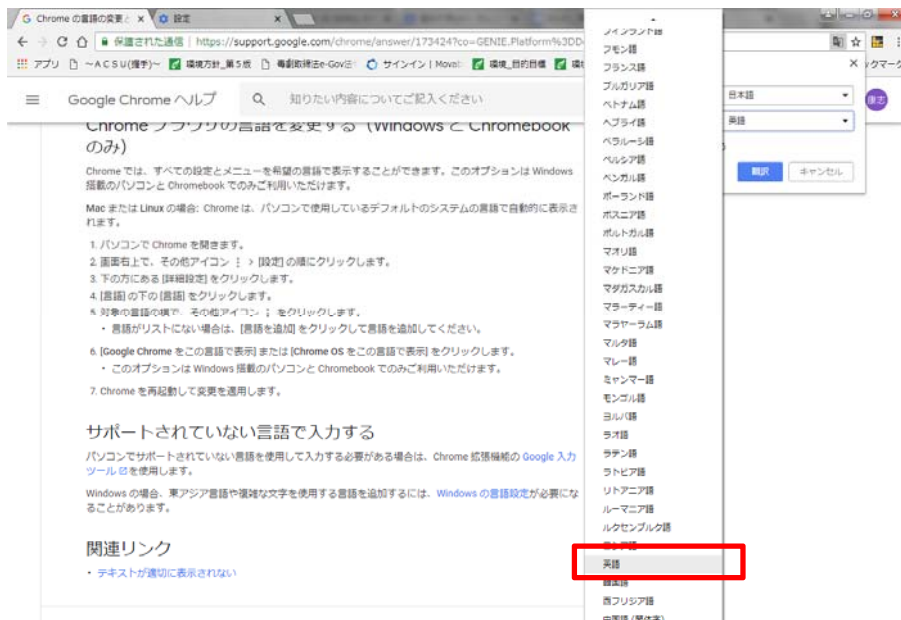

4, Right-click (anywhere on the screen) on the page screen and click "日本語に翻訳"  
※If you want to translate English pages in Japanese, this is the completion.

- 5, A translation icon will appear on the left side of the ☆ mark on the top right of the page.  
Click the icon and click "オプション" → "言語を変更".

- 6, Select the language you want to translate (As shown on the screen if you want to select English).

7, Click "翻訳" and the setting is completed.
