

List of Academic Staff, Faculty of Education, Shinshu University

Name	Reserach field	Research theme
Adachi, Hitomi	Educational methodology, Career education, Classroom analysis	Formation of career awareness in integrated learning / Impact of UNESCO activities on career development of youth
Aoki, Hajime	Educational management, Teacher education	School organization management / Class management / Cimmunity school
Aoyama, Takumi	English language teaching, Second language acquisition	Psychology of language learning / L2 motivation in Japanese EFL context
Azegami, Kazuyasu	Teacher education, Life studies and integrated learning education	Study of reflection practice that encourages teachers' views
Chino, Kimiho	Pedagogy of school subjects, Mathematics education, Science education	Proof and proving in school mathematics/ Curriculum and learning in 3D dynamic geometry environment
Chino, Rie	School psychology, Educational clinical studies	Psychological approach to various issues in educational sites / Children's autographs, school refusal, school safety, team assistance

Jung, Hyojung	Family resource management, Family life education	Family life education in home economics / Family life education / Family life education/ International comparative study of home economics / Gender
Dalton, Colleen	Communicative language teaching	L2 Writing / Culture
Fujisaki, Seiya	Economics	Theoretical analysis of economic policy/ Information use in education based on economic content
Fujita, Ikuro	Sport pedagogy	Creating physical education materials / Research on teachers' instructional language
Fujiwara, Takamasa	Japanese modern and contemporary literature	Postwar literature centered on Taijun Takeda
Fukuda, Noriko	Pedagogy of school subjects, Home economy pedagogy	Research on the development of teaching materials and instructional methods in the area of home economics clothing for elementary, junior high, and senior high school students
Fusegi, Hisashi	Educational methodology, Teacher pedagogy	Development and practice of autonomous learning to cultivate self-learning ability / Classroom development of integrated learning and formation of teachers' competence

Hara, Yohei	Special needs education, Teacher education	Realization of deep learning in special support education
Hashimoto, Masaharu	Sociology of sports	Sports, media, and local communities
Hayashi, Kampei	Comparative education, Education policy, Educational administration	Global education policy market / Sweden / Education export
Hirouchi, Daisuke	Geography	Research on the history of landform development in Japan and East Asia / Elucidation of the activity characteristics of active faults / Disaster prevention education and regional disaster prevention research
Ida, Hideyuki	Ecology, Nature education	Ecological research on the regeneration dynamics of beech forests / Systematization of traditional ecological knowledge on the use of satoyama resources / Practical research on nature and forest environmental education
Inose, Masanobu	Fine arts education (sculpture)	De -dried lacquer production research / Research on tactile education
Ito, Fuyuki	Photochemistry, Physical Chemistry	Molecular dynamics of organic molecular assembly processes / Luminescent organic solid state materials
Iwata, Yasushi	Pedegogy of physical education	A pedagogical study of physical education

Kambara, Hiroshi	Condensed matter physics II	Research on physical properties focusing on electrical conduction in junction systems / Development of teaching materials for physics experiments
Kamimura, Etsuko	School psychology, Special needs education	Cooperation between teachers and parents / Educational consultation and consultation / Assistance to children with high needs
Kaneko, Fumihiko	English literature	English education and English literature / English literature from various perspectives / Decoding English children's literature
Kasahara, Motohiro	Science education	Qualities and abilities fostered through cross-curricular learning
Kawakubo, Hideki	Production engineering, Manufacturing, Design engineering	Combined finishing methods with field-assisted machining / Magnetic field-assisted machining and its application technology
Kirihara, Aya	Music pedagogy	Intercultural understanding and multicultural conviviality in music education / Music education curriculum in Spain
Kitazawa, Yoshitaka	School management, Teacher education	Creating schools that enhance students' ability to self-govern / Establishing a training system that helps build teacher competence

Kobayashi, Hideyo	'Shosha' and calligraphy education	Comparing handwriting education in different countries/ Examining 'Shosha' education in the introductory stage of learning /Studying 'Shosha' education for left-handed people, and other themes
Koike, Hiroko	Intercultural communication	Intercultural communication competence
Kon, Mayuko	Geometry	Submanifold theory / Development of e-learning materials
Matsumoto, Yasushi	Pedagogy of school subjects, Social studies education	Problem solving learning theory / Information conversion society and social studies education / Autonomous learning method / Sovereign education
Matsushima, Koki	Philosophy, Ethics, Philosophy of education	Relationship between ontology and education / Active learning
Matsuzawa, Yasumichi	Mathematics	Analysis (mathematical)
Misaki, Takashi	Science education	Learners' nature awareness and concept formation in elementary and middle school science classes
Mitsuno, Tamaki	Human science (including cloth/living environments)	Clothing pressure / Development of compression wear (body fat burning, swelling reducing socks, etc.) / Effects of compression on humans

Miwa, Shuhei	Educational psychology	Motivation for learning / Valuing the subject matter
Miyashita, Akio	School management, Teacher education	Creating a school to open up the future
Miyazaki, Mikio	Education, Mathematics education, Science education	Proof in mathematics education / Non-cognitive skills in subject pedagogy
Miyaji, Kouichiro	Psychophysiology of human development	Physiological psychological research on developmental assistance for children with severe mental and physical disabilities / Research on the QOL environment of hospitalised children
Mizuguchi, Takashi	Early childhood psychology, Developmental science	Development of language, cognition and social skills in infancy / Human-specific mental functions based on neuroscience
Mizutani, Mizuki	Forest ecology	Wildlife conservation management and damage control / ESD / SDGs with UNESCO Eco-Parks
Morishita, Takeshi	Educational technology, Teacher education, Distance education	Proactive, interactive, and authentic learning through the use of ICT equipment such as tablet terminals and videoconferencing systems
Mukai, Hidefumi	Clinical psychology	Anxiety disorders / Transdiagnostic approach

Muramatsu, Hiroyuki	Technical pedagogy	Digital fabrication / Intellectual property learning / Robotics / Development of teaching materials for technology
Nagamatsu, Yuki	Special support for education	Development of children with intellectual disabilities / Evaluation and support of children with developmental disabilities (LD children)
Nakajima, Takao	Instrumental music education	Piano performance / Performance interpretation / Research on music teaching contents and methods / Research on music education curriculum in Germany
Nishi, Kazuo	Japanese classical literature, Japanese language education (classical education)	The reception of Chinese literature in "Manyoshu" / Development of teaching materials and research on classics / Classics education in elementary, junior and high schools
Ochi, Yasushi	Sociology of education	School organization theory / Media and education
Ogura, Mitsuaki	Technology education, Information technology education	Fostering problems and issues setting power in technical education
Ohata, Kenji	Teacher education, Social studies education	Development of in-school research that supports teachers' learning / Collaborative reflection with fellow teachers / Use of local materials as teaching materials

Okada, Masashi	Art education	Appreciation education / Reading comprehensive appreciation
Okumura, Maiko	Philosophy of children with disabilities, Special support education	A study of support approaches based on a lifelong developmental perspective of scene retention
Ono, Ayako	Art history	History of modern art / History of East-West artistic exchange
Ono, Takashi	Composition, Music theory, Music science	Contemporary music composition / Music aesthetics
Oshima, Kenichi	Pedagogy of school subjects, Art education	History of art education / Research on art education practice / Art project
Saito, Tadahiko	Music education	Significance of musicology / Development of musicology teaching materials / Brain science and music / ICT utilization in music education / Music in nagano prefecture
Sakaguchi, Masahiko	Neurophysiology, Science education	Drosophila neurobiology / Development and research of teaching materials that remind us of the relevance of each area of mathematics and science

Sakai, Hideki	Foreign language education, Second language acquisition	Roles of input and interaction in second language acquisition / Second language processing / Motivation
Sakugawa, Kenji	Number theory, Arithmetic geometry	Pro-unipotent fundamental groups of algebraic varieties
Sato, Unkai	Material processing, Microstructural control engineering, Production engineering, Processing studies	Surface treatment, cleaning, and modification of industrial materials
Sato, Kazunori	Educational technology, Information education, ICT active teaching, Educational methodology	Classroom management, study guidance, and the development of information use skills in elementary schools
Seki, Yoshinori	Philosophy of law, Legal theory, Law-related education	Philosophical research on "Foucault and Law", Theoretical research on law-related education
Shimada, Hideaki	Cognitive psychology, Educational psychology, Educational technology	Text comprehension / Empathy and learning / Application of psychology
Shimoyama, Mae	Psychology for children and adults with disabilities	Mental health of children and adolescents with intellectual disabilities / Applied behavior analysis

Shimura, Kanako	Japanese history	Ancient Japanese history (capital cities, court ceremonies, bureaucracy)
Shinoda, Naoko	Clinical psychology, Lifetime development clinical practice	Lifelong developmental support for individuals with developmental disability characteristics / Development of interventions for college students with developmental disability characteristics
Shinozaki, Masanori	Social studies education (history of social studies education, teaching social studies, teaching history)	The process of establishing instruction in initial social studies after World War II / Fostering historical literacy in social studies
Shirotori, Katsunori	Teacher pedagogy	Study of measures to enhance "Team School" / Improvement of practical skills of teachers and staff
Sugiyama, Shunichiro	Japanese philology (linguistics)	Grammar / Vocabulary / Styles / Historical study of case markings in Japanese
Tajima, Tatsuya	Vocal music	Practical research on vocal performance
Takahashi, Fumito	Clinical psychology, Developmental psychology	Cognitive behavioral therapy / Parenting / Developmentally-sensitive intervention

Takahashi, Tomone	Educational psychology, Clinical psychology	Assessment and support for individuals with developmental disabilities
Takasaki, Sadako	Food science	Research on the characteristics of food preparation and processing, and the functionality of food
Takayanagi, Mitsutoshi	Philosophy of education/Teacher education	American philosophy and education / The significance of reading in teacher education
Takeshita, Yoshihiro	Geology (quaternary geology, tephrostratigraphy)	Research on the formation process of basins and mountains / Research on the relationship between the paleoenvironment and humans during the last glacial period
Taki, Naoya	Outdoor education	Educational effects of outdoor education
Tanaka, Kosuke	Linguistics	Syntax / Semantics
Tenya, Kenichi	Condensed matter physics II, Science education	Magnetism and superconductivity in compounds with strongly correlated electron systems
Terasawa, Koji	Health education	System building on health education
Tokui, Atsuko	Intercultural education, Japanese language education	Communication research to support foreigners in the community

Tomokawa, Sachi	International school health, Health education, Environmental education	Teaching materials and curriculum development for health and environmental education / Human resource development / School health policy / Eco-health / Health promotion activities in pre-school education
Uehara, Toshiharu	Science education, Cognitive psychology, Educational engineering	Teaching and learning of science based on deductive reasoning / Relationship between the application of scientific knowledge and logical thinking
Watanabe, Toshiaki	Movement theory of sport (Bewegungslehre des Sports)	Theory of Instruction in movement / Effective organization of teaching materials and creation of teaching materials for physical education
Yagi, Yuichiro	Japanese language education	Research on the history of Japanese language education / Research on creative activities in learning to read
Yamagishi, Akihiro	Housing studies, Architectural planning principles	Analysis of the built thermal environment / Preservation and utilization of historic buildings / Study in the area of home dwellings
Yamamoto, Hiroki	English language education, Second language acquisition	Motivation / Vocabulary learning / Speaking instruction and assessment
Yatsuka, Mitsunori	Educational engineering, Teacher education, Science education	Research on the use of teaching portfolios in teacher training

Yoshida, Haruto	Trumpet performance, Wind instrument and brass band instruction, Conducting	Musical expression in wind instrument performance / Conducting and teaching brass band and orchestras / Training brass band leaders
Yuki, Masahiro	Winter sports biomechanics	Research on the Improvement of speed skating competitiveness
